**EXAMINER'S AMENDMENT & REASON FOR ALLOWANCE**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Bergstrom on 9/8/05.

The application has been amended as follows: claims 18-24 are canceled.

2. The following is an examiner's statement of reasons for allowance: the method for associating an active region with a corresponding position within an image included in a page includes sending to a server a request by the browser and receiving from the server a description of a page, in response to the request, that includes an image with specified shape, size, and location via the image coordinates and that allows a user to perform an action in response to an input event on the active region was disclosed in the art. However, said method with instantiating a viewer for displaying the image and passing to the viewer the input event and the parameters included in the invocation of said viewer, as well as storing by the viewer representations of active regions within the image in image-relative coordinates along with indications of the actions performed on the active region, were not disclosed by, and would not have been obvious to a person of ordinary skill at the time of the invention over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cong-Lac Huynh whose telephone number is (571) 272-4125.
